PERSONAL PROJECTS

Automated ELK Stack Deployment in Azure

Deployed the Elastic Stack (Elasticsearch, Logstash, Kibana, Filebeat) on Microsoft Azure, establishing a centralized logging and security analytics platform. Configured the stack to ingest and parse sample Apache server logs for proactive security event analysis and visualization.

Active Directory Pentest Lab in Azure

Built a custom pentesting lab environment in Microsoft Azure to simulate real-world Active Directory attacks and defenses. Demonstrated hands-on skills in privilege escalation, enumeration, and exploitation in a controlled cloud-based lab setup.

INTERNSHIPS

August 2024 — October 2024

Trainee, *Sri Lanka Telecom*

Completed a 3-month on-site internship as a Trainee at Sri Lanka Telecom in Western Province, gaining exposure to data entry, customer interactions and sales.
