PROFILE

Motivated Cybersecurity undergraduate with a robust technical foundation in Security Operations, Active Directory, and Linux Server Administration. Dedicated to maintaining system integrity and enhancing infrastructure resilience through proactive security measures. Passionate about solving complex, real-world problems and eager to leverage academic knowledge within a dynamic Security Operations team to drive operational excellence and mitigate emerging threats.

EDUCATION

SLT-MOBITEL NEBULA INSTITUTE OF TECHNOLOGY   Welisara, Sri Lanka
Pearson BTEC HND in Digital Technologies (Cyber Security)   Expected Sept 2026

SLT-MOBITEL NEBULA INSTITUTE OF TECHNOLOGY   Welisara, Sri Lanka
Certificate in Applied Information Technology   Mar 2024 – Jun 2024

NALANDA COLLEGE   Colombo, Sri Lanka
G.C.E Advanced Level (Physical Science)   Jan 2024

WORK EXPERIENCE

SRI LANKA TELECOM   Nittambuwa, Sri Lanka
Internship Trainee   Aug 2024 – Oct 2024
- Handled sensitive data entry tasks with high accuracy, ensuring the integrity of customer and corporate records.
- Demonstrated strong communication skills by interacting with customers and collaborating with internal teams to resolve queries.
- Followed strict corporate protocols regarding documentation and sales support functions.

SKILLS

Security Operations & Tooling: SIEM (Wazuh/ Microsoft Sentinel), EDR & Threat Management, Log Analysis (KQL), Wireshark, BurpSuite, Nmap, Nessus, Docker, Git, MITRE ATT&CK Mapping, OWASP Top10
SysAdmin & Networking: Windows Active Directory, Azure Entra ID, Linux Server Administration, Virtualization (VMWare), Cisco, AWS
Scripting & Automation: Python, Powershell, Bash, Ansible
Additional Skills: Security Documentation, Incident Ticketing, IT Help Desk, Analytical Thinking, Professional Communication

PERSONAL PROJECTS

WAZUH THREAT DETECTION LAB   Oct 2025
- Implemented a Wazuh SIEM solution to monitor endpoint security across Windows and Ubuntu agents, ensuring multi-channel alerting for critical events.
- Simulated intrusion attempts to validate detection rules, investigating findings through real-time log analysis and incident triage.

WINDOWS ACTIVE DIRECTORY LAB

Jul 2025

- Established a comprehensive Azure-based Windows AD lab (AD DS, ADCS) to replicate an enterprise environment and configure domain service accounts.
- Utilized the environment to test security policies and hardening techniques against common Active Directory vulnerabilities and simulated attack vectors.

SECURITY AUTOMATION LAB

Aug 2025

- Developed an automated SOAR workflow to detect credential dumping on Windows Server, utilizing real-time alerting to trigger immediate endpoint isolation.
- Successfully demonstrated automated incident escalation and analysis, effectively minimizing response times and mirroring core security team workflows.

AZURE LOG ANALYSIS LAB

Aug 2025

- Deployed an Azure honeypot to capture malicious RDP traffic, utilizing custom PowerShell scripts to automate threat intelligence gathering and attacker geolocation.
- Leveraged Microsoft Sentinel and KQL to analyze network logs, identify global attack patterns, and visualize threat data for documentation.

TICKETING SYSTEM & DOCUMENTATION LAB

Dec 2025

- Implemented a Spiceworks-based ticketing system to manage the full lifecycle of IT support requests, from initial logging to resolution.
- Documented technical findings and escalation procedures for simulated incidents, mirroring standard ITIL-based service desk operations.

CERTIFICATIONS

RedHat Certified System Administrator (RHCSA) – In Progress
CWL Certified Red Team Analyst (CRTA)
Microsoft Certified Azure Fundamentals (AZ-900)
Microsoft Certified Azure AI Fundamentals (AI-900)

VOLUNTEERING

MICROSOFT IT PRO COMMUNITY – SRI LANKA

Colombo, Sri Lanka

Community Volunteer

Nov 2025 – Present

- Assist in coordinating workshops and community engagements that bridge the gap between technology and professionals in Sri Lanka.
